PROFESSIONAL SUMMARY

Developer and Data Analyst continuously training in Software Engineering, with experience building end-to-end solutions combining business analysis, automation, and Artificial Intelligence. Proficient in the Python ecosystem (Flask, APIs), relational databases, and LLM integration, seeking positions in Data Engineering or Machine Learning. My goal is to apply my modeling capabilities, from back-end to visualization, to create intelligent data products and solve complex business problems.

EDUCATION

Software Engineering (Bachelor's Degree)
Universidade UNOPAR | Expected Graduation: 07/2029

PROFESSIONAL EXPERIENCE

Junior BI / Billing Analyst
Levo Alimentos | 04/2025 - Present

- Data Engineering and Architecture: Led the extraction, transformation, and structuring of data (ETL) focused on the company's accounting and logistics routines.
- Data Visualization: Developed interactive dashboards in Power BI for real-time monitoring and analysis of billing indicators and inventory control.
- Automation and Database: Created automated workflows and cross-referenced information using Python and SQL to perform advanced systemic audits of product balances.
- Process Optimization: Integrated and performed advanced data analysis using corporate management systems (such as Maxycon), alongside database optimization to ensure full integrity of tax and accounting records.

Billing Assistant
Levo Alimentos | 10/2022 - 03/2025

- Systemic Data Control: Provided analytical and continuous management of physical and systemic workflows, ensuring data accuracy for tax bookkeeping.
- Analytical Auditing: Supervised freight billing with a strong focus on data-driven balance reconciliation, mitigating errors and ensuring full tax compliance.

TECHNICAL SKILLS

- Analysis and Databases: Power BI, Advanced Excel, SQL, NoSQL, PostgreSQL.
- Programming and Automation: Python (focus on Back-End and Process Automation), FastAPI, Flask.

- Business and Data Governance: Data Modeling (ETL), Accounting Inventory Control, Billing, and Tax Bookkeeping.
- Additional Tools: Git/GitHub, DBeaver, Google AI Studio, Linux (Nobara/Fedora).

COURSES AND CERTIFICATIONS

- Power BI Analyst Bootcamp | DIO (60h) - Completed: 11/2025
- AI Fundamentals Bootcamp | DIO (10h) - Completed: 11/2025
- Python Fundamentals Bootcamp | DIO (26h) - Completed: 07/2024
- Coding The Future Vivo - Python AI Back-End | DIO (67h) - Completed: 04/2024
- Big Data | IFMG (40h) - Completed 10/2026
- Advanced Big Data and Data Mining | IFMG (40h) - Completed: 10/2026

LANGUAGES

- Portuguese (Native) | English (Intermediate)
